# Defining Outreach and Engagement at Michigan State University

“Outreach [and engagement] is a form of **scholarship** that cuts across **teaching**, **research**, and **service**. It involves generating, transmitting, applying, and preserving knowledge **for the direct benefit of external audiences** in ways that are consistent with university and unit missions.”

# Outreach and Engagement Takes Many Forms

# Historical Context for Collecting this Data: 1993 - 2013

- In its 1993 report, the Provost's Committee on University Outreach formally recommended:
  - MSU determine a means of assessing the quality of engagement and outreach activities
  - Establish a system for measuring, monitoring, and evaluating outreach with sufficient standardization to permit aggregation at the unit, college, and University levels, and sufficient flexibility to accommodate important differences across disciplines, professions, and units. (p. 14)
- Data Collection: Incremental Approach
  - Review and revisions are made to several university reporting forms
  - New narrowly-focused reporting instruments are created and fielded
  - Collaboration with first online reporting system

# Historical Context (cont.)

- Assessing Quality: *Points of Distinction: A Guidebook for Planning and Evaluating Quality Outreach* (1996); quality is assessed across four dimensions:
  - Significance
    - Importance of issue/opportunity to be addressed
    - Goals/objectives of consequence
  - Context
    - Consistency with University/unit values and stakeholder interests
    - Appropriateness of expertise
    - Degree of collaboration
    - Appropriateness of methodological approach
    - Sufficiency and creative use of resources

# Historical Context (cont.)

- *Assessing Quality: Points of Distinction: A Guidebook for Planning and Evaluating Quality Outreach* (1996); quality is assessed across four dimensions:
  - Scholarship
    - Knowledge resources
    - Knowledge application
    - Knowledge generation
    - Knowledge utilization
  - Impact
    - Impact on issues, institutions, and individuals
    - Sustainability and capacity building
    - University-Community relations
    - Benefit to the University
- MSU received the University Continuing Education Association Innovations in Continuing Education Award for Points of Distinction (1998)

# Historical Context (cont.)

- Data Collection: More Direct Approach
  - UOE began developing a university-wide data collection instrument
    - Comprehensive reporting on outreach and engagement
    - Iterative development process drawing on findings from pilot tests with departments from different colleges, a whole college, faculty from across MSU working in Lansing, recipients of a national award for engaged scholarship, and other universities
- MSU promotion and tenure guidelines were revised (2001), aligning documentation requirements with *Points of Distinction*
- In 2002, MSU began participating in national efforts aimed at identifying measures (CIC, APLU/NASULGC) which continue today
- The Outreach and Engagement Measurement Instrument (OEMI) was launched at MSU in 2004; has been used each year since
- OEMI data were used to support institution-wide self-studies for HLC/NCA accreditation and Carnegie classification in community engagement (2005)

# Historical Context (cont.)

- MSU hosted representatives from over 60 universities in national invitational conference on Benchmarking University Engagement (2005)
- Research partnerships for use of the OEMI begin to develop
  - University of Connecticut (2005, pilot study only)
  - University of Kentucky (2005 – 2012)
  - University of Tennessee system (2006 – 2008)
  - American Association of Colleges of Pharmacy (2007 – 2008, pilot study only)
  - Kansas State University (2007 – 2010)
  - Texas Tech University (2009 – present)
  - Upcoming in 2013 (University of Delaware, Texas A&M University – Central Texas, Ferris State University)
- OEMI received the University Professional and Continuing Education Association Outreach and Engagement Community of Practice award for innovation (2007)
- Ongoing review of the Instrument and participation in national dialogue

# Outreach and Engagement Measurement Instrument (OEMI)

The OEMI is a survey that collects data on faculty and academic staff outreach and engagement activities

- **Process**

- Conducted annually
- Institution-wide
- Online, open 24x7, January-March
- Reporting on effort in the previous calendar year

- **Respondents**

- Individuals, not units
- Faculty and academic staff

### Michigan State University Survey 2012

MICHIGAN STATE  
UNIVERSITY

Engagement Activities from January 01, 2012 through December 31, 2012

#### What is outreach and engagement?

Outreach/engagement occurs when a person's research, teaching, or service activity significantly engages that person's scholarly or professional expertise with communities and/or organizations outside the academy with the direct goal of improving outcomes for those who live and work in them. That is, outreach/engagement is scholarly activity conducted for the direct benefit of audiences external to the academy; for example, non-traditional students, government agencies, industrial firms and associations, health and welfare organizations, preK-12 schools, labor organizations, and the like.

Outreach/engagement is often like other faculty work that occurs on campus, but may differ in format; for example, by scheduling instruction at times and in places convenient to a working adult, or by communicating research results in ways that an external audience finds both understandable and usable. At its best engagement involves shared goals, expertise, resources, and results in mutually identified benefits.

#### What is the OEMI?

In order to help increase public understanding of Michigan State University's outreach/engagement effort, the Provost's Office collects data annually on faculty activities. The OEMI gathers numerical data about your outreach/engagement along seven dimensions:

- Time spent
- Societal issues
- Boldness By Design imperatives
- Forms of activity
- Locations
- Non-university participants
- External funding and in-kind support

The survey also asks for descriptive information about purposes, methods, impacts on scholarship, and impacts on the external audiences for individual projects/activities. This information enables the University to showcase its faculty's contributions to the public that supports it.

#### Who should complete the OEMI?

All faculty, academic specialists, research associates, campus-based extension specialists, and visiting faculty should complete the OEMI. Adjunct faculty, graduate assistants, administrative professionals, and other MSU employees are not included at this time.

If you did **NOT** participate in any outreach/engagement activities during this period, please log in and select "I did not participate in any outreach/engagement activity during this period." in the first question.

#### What to report?

Outreach/engagement is an aspect of many different kinds of scholarly work, neither a separate sphere of activity distinct from teaching or research nor identical with "service." **It is very likely that you will include activities on the OEMI that you may have reported in other places as instruction, research, or creative activities. Thus, the first question on this survey asks you to identify the percentage of your total outreach effort across all the categories of your academic work (i.e., instruction, advising, research and creative activity, service, and administration).** This work can take the form of:

- Outreach Research and Creative Activity [?](#)
- Technical or Expert Assistance [?](#)
- Outreach Instruction: Credit Courses and Programs [?](#)
- Outreach Instruction: Non-Credit Classes and Programs [?](#)
- Outreach Instruction: Public Events and Understanding [?](#)
- Experiential/Service-Learning [?](#)
- Clinical Service [?](#)

Note: Throughout the survey, use the help icons [\(?\)](#) for definitions and examples.

#### How to begin the survey?

To start the survey, proceed to the [login page](#).

You will need your MSUNetID and password to log in. If you have trouble logging into the survey, contact the Administrative Information Services (AIS) Help Desk at 517-353-4420, ext. 311.

# OEMI (cont.)

The OEMI collects quantitative and qualitative data

- Data on faculty effort
  - Time spent in outreach and engagement: percentage of all University work across all research, teaching, and service
  - Societal issues addressed
    - Business and Industrial Development
    - Children, Youth, and Family (non-school related)
    - Community and Economic Development
    - Cultural Institutions and Programs
    - Education, Pre-Kindergarten through 12th Grade
    - Food and Fiber Production and Safety
    - Governance and Public Policy
    - Health and Health Care
    - Labor Relations, Training, and Workplace Safety
    - Natural Resources, Land Use, and Environment
    - Public Safety, Security, and Corrections
    - Public Understanding and Adult Learning
    - Science and Technology
  - Contribution to University strategic imperatives: five identified by the University's president
  - Promotion of diversity/inclusion and attention to urban issues

# OEMI (cont.)

The OEMI collects quantitative and qualitative data

- Data on faculty effort (cont.)
  - Forms of outreach and engagement
    - Outreach Research and Creative Activity
    - Technical or Expert Assistance
    - Outreach Instruction: Credit Courses and Programs
    - Outreach Instruction: Non-Credit Classes and Programs
    - Outreach Instruction: Public Events and Understanding
    - Experiential / Service-Learning
    - Clinical Service
  - Location of intended impact: geography
    - Major metropolitan and municipal areas
    - Counties
    - Countries
  - Non-university participants: physically and virtually present
  - External funding: into the University and into the partner(s)
  - In-kind support: value of professional and volunteer labor and other resources

# OEMI (cont.)

The OEMI collects quantitative and qualitative data

- Data on specific projects
  - Name of project
  - Societal issues addressed
  - Description of efforts: actions/methods, with whom, issues/opportunities, purposes
  - Duration
  - Involvement of University units, and students
  - Involvement and the nature of partner participation
  - Sources of funding
  - Impacts on external audiences
  - Creation of intellectual property
  - Impacts on scholarship
  - Scholarship about the engagement
  - Evaluation

# Data Collection with the OEMI at MSU: 2004-2012

- 3,103 distinct (non-duplicative) respondents have completed the survey
  - During this period the size of the faculty and academic staff has remained relatively stable (approximately 4,950 in 2012)
- 82.3% of respondents report that they have participated in some form of outreach and engagement
- The work reported by these respondents represents a collective investment by Michigan State University of \$148,185,141 in faculty and academic staff time devoted to addressing the concerns of the state, nation, and world through engaged scholarship (based on the actual salary value of time spent, as reported by respondents)
- Respondents have submitted 7,581 project reports

# Utilizing Data about Community-Engaged Scholarship and University Outreach

## Centralized data can serve a variety of purposes

- Describing the university's outreach and engagement activity (telling the engagement story)
  - Communicating examples across disciplines and sectors
    - Helping faculty develop better understandings of what community-engaged scholarship might look like in their field
    - Helping stakeholders see the many ways in which the University partners with communities, businesses, government agencies, schools, and NGO's
  - Recognizing exemplars
    - Helping the institution represent what it considers to be high quality community-engaged scholarship
    - Helping the public understand that the University values engagement

# Utilizing Data about Community-Engaged Scholarship and University Outreach (cont.)

- Responding to accreditation and other institutional self-studies
  - Benchmarking and exploring cross-institutional analyses
  - Conducting assessments and strategic planning
  - Documenting the salary investment of a university's contributions of scholarship for the public good
  - Mapping the locations of partnerships
  - Assisting faculty networking efforts in particular communities and/or around specific topics
  - Supporting faculty development efforts
  - Cataloging engagement opportunities and outreach programs to promote public access
  - Source of data for original research studies

\*The number of "responses" may be greater than the number of "respondents," since each respondent who indicated involvement in outreach and engagement had the opportunity to describe those activities in either one or two Areas of Concern -- each such description is counted as a separate response. Therefore, there may be more "responses" than "respondents."

\*The number of "responses" may be greater than the number of "respondents," since each respondent who indicated involvement in outreach and engagement had the opportunity to describe those activities in either one or two Areas of Concern -- each such description is counted as a separate response. Therefore, there may be more "responses" than "respondents."

## Analysis of Data Collected through the Outreach Measurement Instrument

September, 2003

### Pilot Test of the Outreach Measurement Instrument (OMI)

The Office of University Outreach and Engagement has developed a survey instrument that faculty can report how they are involved in applying their scholarly skills to helping peer organizations address pressing issues facing them in Michigan and beyond. This survey is the Office's overall effort to gather information that will allow MSU to "tell its story" in a myriad ways it serves the public which supports it. The survey is designed to collect both quantitative data and narrative description.

In the spring of 2003, University Outreach and Engagement piloted the instrument with departments in the areas of applied social and behavioral science (including the fields of communications and business but not education). All faculty and academic staff in those departments were asked to complete the survey as a pilot test of the survey's usability and informativeness.

### Results of the Pilot Survey

#### Return on Investment

Responses to the spring 2003 pilot survey revealed that in nearly 32% of their overall effort, faculty and academic staff in these departments were engaged with organizations and groups outside the academy in applying their scholarship to address pressing issues facing those organizations and communities and/or offering credit and non-credit instruction to non-students. That effort constitutes an investment of approximately \$2.2M salary dollars. The University is making to insuring that the University's knowledge resources are used for the benefit of the community. In addition, faculty and academic staff report that their outreach work was instrumental in securing \$11,375,250 to the University to support that work and, further, that their outreach work contributed to the generation of \$12,403,000 in grants and contracts awarded to their departments.

## Snapshot of Outreach and Engagement at Michigan State University, 2011

Sponsored by MSU's National Collaborative for the Study of University Engagement (NCSUE), the Outreach and Engagement Measurement Instrument (OEMI) gathers data about the outreach activities of MSU faculty and academic staff. The information is self-reported and participation in the annual survey is voluntary. Data for 2011 were collected between January and March 2012 and represent the eighth year of data collection; 816 faculty and academic staff responded to the survey. Since 2004, 2,942 distinct (non-duplicative) respondents have reported their outreach and engagement through the OEMI. For this snapshot, OEMI data are augmented with data from the service-learning and civic engagement student registration system.

### OEMI results for 2011 include the following:

**\$12,962,951**

Value of salary investment by MSU faculty and academic staff in addressing issues of public concern (data from those reporting outreach activities on the OEMI)

**95.6%**

Respondents whose outreach contributed to achieving Boldness by Design (BDD) Imperatives:

**75.3%** Enhanced the student experience

**73.4%** Enriched community, economic, and family life

**43.9%** Expanded international reach

**66.9%** Increased research opportunities

**55.7%** Strengthened stewardship

**580**

Number of specific projects/activities reported

Of the respondents who described specific projects/activities:

**84.9%** Reported working with external partners

**88.4%** Reported having created intellectual property and scholarly outcomes

**86.2%** Reported that their outreach work impacted their scholarly or teaching practices

### Projects by Birbeck and DeLind Represent MSU for Prestigious Regional and National Awards

For the third consecutive year, two outstanding projects were selected to represent Michigan State University in a national award program that recognizes university-community partnerships. The projects were placed in consideration for the regional W. K. Kellogg Foundation Engagement Award and the national C. Peter Magrath University/Community Engagement Award, based on the recommendations of President Lou Anna K. Simon and Provost Kim A. Wilcox. The nominations were submitted in March.

Dr. Gretchen L. Birbeck, associate professor and director of the International Neurologic and Psychiatric Epidemiology Program, works with people affected by epilepsy in Zambia. Dr. Laura B. DeLind, senior academic specialist in the Department of Anthropology and visiting assistant professor in the Residential College in the Arts and Humanities, is the catalyst for a local effort to develop a food system infrastructure in an urban area long regarded as a "food desert." ...
